| 10 | Curriculum Taught in English |

THE STUDY IN INDIA PROGRAMME

Study In India is a brainchild of the Govt. of India for international students to have access to India's top-notch educational facilities.

The Study In India Program brings you:

The availability of **100,000 seats**

to study in any of the **UG, PG and PhD programs**

with an option of **2600+ Courses**

to pursue from **500+ Premier Institutes**

Meet all your academic goals and some more!
All you need to do is bring your best self and India can help you achieve your dream!

**Say Goodbye to your worries
And Say YES to Study in India
Because you get:**

Affordable Education with Fee Waivers

Fee Waivers are concessions offered on tuition fees by the Study in India partner institutes. More than 90,000 fee waivers are granted across 500+ institutes but the number of fee waivers differs from one institute to another.

Assistance from our team of experts

When you have big ambitions, you certainly need guidance. And our trained professionals will help you through that!

Ease in the Admission Process

Through regular interactions in student fairs and other events, we set out to help every student solve their queries. This makes the admission process a smooth sailing experience for you.

Guidance on the selection of courses

Since there is a wide range of options available, we make sure that you pick a course based on your interests, skills, and goals.

Along with academics, India nurtures student development in social, cultural, intellectual and moral aptitude. This makes it a perfect destination for holistic growth!

STUDY IN INDIA - APPLICATION ADMISSION FLOW

a. Registration

Visit the Study in India portal and fill in the basic information to register.

b. Complete Your Profile

You'll get a Unique Study in India ID. Complete basic and academic information, for example, last education qualification marks obtained.

c. Apply for courses

Search for the courses of your interest, check eligibility criteria and apply for multiple courses across different institutions.

d. Offer Letter + Admission process

If you meet the eligibility criteria, you will receive an admission offer letter from different institutions.

d. Finalize admission

Finalize the institute of your choice by accepting their admission offer letter. Next, the online visa process begins.

Note: Registration under latest norms by the Government of India is mandatory if any international student aims to study in India for their higher education.

HOW TO CHOOSE RIGHT UNIVERSITY FOR YOURSELF ?

Tip #1:

Consider your academic goals and the University's ranking. Make sure the university offers courses that align with your interests and are accredited by statutory bodies.

Tip #2:

Consider the location and surroundings of the university. Ensure that the location has access to basic amenities for your convenience.

Tip #4:

Email your queries at help.studyindia@gov.in. We're just an email away to solve any or all of your doubts!

Tip #3:

Speak with representatives at educational fairs & connect with alumni. Attend education fairs and connect with representatives to solve any queries. Join the Study in India Facebook group to interact with alumni and get insights into campus life, culture, and academics.

Here are some pointers you must keep in mind before applying for a course of your choice:

- Many institutions also offer a mid-year or second-semester start.
- The academic session in Indian institutions starts from July to August.
- Start dates and the number of semesters vary by course and institution, so please check each institution's website for details.

The institution you choose will have the most renowned state-run facilities but you don't need to pay a hefty amount to afford the education. Along with this, the cost of living in India is affordable and quite lesser than compared to other countries.

Accommodation

\$150

Laundry

\$15

Food & Housekeeping

\$100

Public Transport

\$45

Personal Expenses

\$50

Prepaid Mobile

\$10

Stationery

\$30

Monthly Total \$400

- Diverse programs
- Pioneering research & innovation
- Faculty boasting of international exposure

Read what **Sarah Hilston** from **Mauritius** has to say about the academic exposure she received:

"I always dreamed about studying abroad but the expenses alone didn't encourage me to do so. When I came across the Study in India program, I found all my answers and experienced the best that education can offer. Waking up every day and learning something new fills me with hope!"

”

LEARN

Home to 46,000+ institutions and 1,100+ universities, India is the world's second-largest higher education system.

India's knowledge infrastructure has scaled up to be on par with global standards through:

- Rapid digitalization across classrooms
- Adoption of modern yet culturally immersive learning

LEARN

THRIVE

India is home to brilliant minds who envision stellar innovations.

From the discovery of Zero and negative numbers to one of the recent real-time payment systems - UPI (Unified Payments Interface) & RuPay which are being adopted in other countries keep garnering a global spotlight.

The stimulating learning atmosphere provided by the Study in India partner institutes inspires students to think creatively and succeed in their academic endeavours.

After your academic journey here, you will be well-prepared to THRIVE in the real world.

Here's what it looks like for **Farah Khan** from **Afganistan** to 'thrive in India':

"To pursue my ambition - engineering, I chose to study in India. The professors in my college helped me to understand the course and future prospects in this field; they also encouraged us to learn and apply our conceptual learning in the top-notch science labs. My friends too have contributed to my goal by being a constant support."

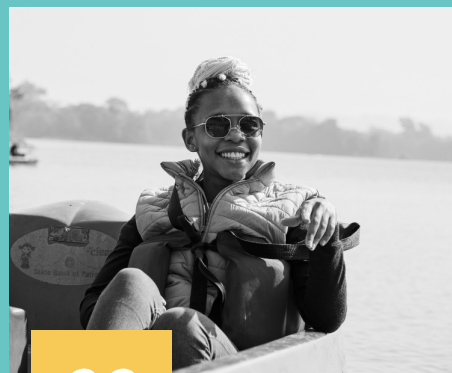

EXPLORE

From the bustling streets of Delhi, where ancient monuments stand in juxtaposition with modern marvels, to the serene backwaters of Kerala, where lush greenery meets tranquil waters, India offers an extraordinary array of experiences that every student must explore.

The country's rich history is etched in its intricate temples, forts, and palaces, each telling stories for generations to come.

Take a look at what happened when **Elizabeth Sanyu** from **Uganda** explored India.

“

“My friends here in India made me a list of places to explore. I first ticked off Varkala Beach in Kerala from this itinerary. Honestly, it's the best beach I have been to so far as it is the perfect setting for night walks, family picnics or to watch the mesmerizing sunset by the shore.”

EXPLORE

Q.1 Are the programs offered by Indian institutions recognised internationally?

- A. All Indian universities and institutions offering degrees in professional and technical courses are recognised globally with the quality assurance given by national-level statutory bodies, namely NIRF and NAAC.

Q.2 What is the Visa Application process?

- A. Applicants should have proof of admission to a full-time regular academic course in a reputed/recognized educational institution in India and evidence of financial support.

Q.3 Do international students need to take GRE, GMAT, TOEFL, IELTS, or any other test to study in India?

- A. While Indian institutes do not insist on such requirements, proficiency in English is a must since the academic programs are taught in English.

Q.4 What are tuition fee waivers?

- A. Tuition fee waivers are concessions given by institutes in the range of 100%, 50%, and 25%. The rest of the expenses like food and accommodation are to be borne by the students.

Q.5 Where can International students seek more information about study options available?

- A. Visit the 'Plan your studies' section on our website to get more information on institutes and courses available.
